

MINI STAR PLANNING GUIDE 2018-19

Being part of a competitive dance team can be a great opportunity for your dancer to learn the skill of **PERFORMING** at a higher level in front of an exciting audience.

You will gain **ARTISTRY** and **CREATIVITY** through classical and contemporary dance styles.

You will receive **FEEDBACK** from dance professionals (judges) that can help you **EXCEL** and **IMPROVE**.

You will grow a stronger sense of **TEAMWORK** and connect with other dancers through additional **COMMUNITY EVENTS**.

Competitive dance will increase your **SELF CONFIDENCE** and give you tangible **GOALS** to measure your growth.

The Performance Dance Team focuses on **HEALTHY** competitive habits such as...

- Time management skills
- Dedication to a team through peer support
- Breaking through personal barriers

"We would love for our dancers to come in "first" in everything they do, but that's not going to happen - and it's not important that it does. What's important is that they learn respect for others and others' accomplishments as well as their own. That's winning!"

Costumes & 2018-19 Events

Why do PDT Costumes cost more?

It is important for the PDT dancers to feel unique and ELITE! Extra attention and custom design goes into all of the PDT costumes. There are often additional accessories or embellishments that are added to every costume. We work hard to find the balance of afford-ability and artistry!
